

## GARDASIL (HPV Vaccination) at The Women's Wellness Centre

- You can reduce the risk of cancer of the cervix by vaccination against Human Papilloma virus (HPV).
- It has now been established that almost all cancers of the cervix are caused by a virus called the Human Papilloma virus (HPV). The only licensed new HPV vaccine, GARDASIL (Sanofi Pasteur MSD) prevents infection from 4 strains that cause over 70% of cervical cancers and 90% of genital warts.
- GARDASIL HPV vaccine provides 100% protection against 4 strains -type 6, 11, 16 and 18.
- Now you can protect your child or yourself against these viruses. The HPV Vaccine is recommended for female children and adolescents between ages 9-15 and young women up to the 26 years of age.
- Only a healthcare professional can decide if GARDASIL is right for you or your daughter – ask about GARDASIL today
